

Guideline For Authors

The MJMS welcomes manuscripts on all aspects of medicine/health science from any part of the world. We are members of World Association of Medical Editors (WAME) and Council of Science Editors (CSE).

Manuscripts must be submitted in English. Manuscripts are considered for publication in MJMS with the understanding that they have not been published or submitted for publication elsewhere. The manuscript should be submitted to the Editor, Professor Jafri Malin Abdullah via Manuscript Central <http://mc.manuscriptcentral.com/maljms>. Please note that at the moment, we do not accept Microsoft Word 2007 documents (*.docx). Please use Ms Word's "Save As" option to save your document as an older (.doc) file type. The guidelines listed below are in accordance with the Uniform Requirement for Manuscripts Submitted to Biomedical Journals (October 2008 revision) of the International Committee of Medical Journal Editors.

Forms

When submitting manuscripts, authors are required to sign the Authorship Agreement Form, Patient Consent Form (if the manuscript includes identifiable patients) and the Publication Agreement Form.

Similarly, the use of animals in research must conform to the institutional and national guidelines.

Patient consent

The author must provide the Malaysian Journal of Medical Sciences with a written consent signed by the patient, or the patient's parents/legal guardian, when submitting a patient video or photograph in which a patient is identifiable (See Patient Consent Form). This form can be downloaded from our website.

Style manuscript and Format

Text: Use subheadings for long articles and double-space all portions of the manuscript

Title page: The title page should have the following information:

- i. Article title without abbreviation
- ii. Authors' names and institutional affiliations: Full names are required, indicate last name with SMALL CAPS. For example, Mohammed Ali JAMALUDDIN.
- iii. Contact information for corresponding authors. The name, address, email of one author who is responsible for all communication concerning the manuscript are required.

Abstract: The length of abstract depends on the type of manuscript submitted. The abstract should state the purpose of the study, a brief description of the procedures employed, main findings and principal conclusions. Abbreviations, foot notes, references and subheadings should be avoided. For original articles, the abstract format is structured as background, methods, results, and conclusion. For other articles, the abstract format is unstructured.

Keywords: Authors must provide between three and six keywords that characterize the main topics of the article. Use recognized vocabularies related to the discipline discussed, such as the MeSH thesaurus <http://www.nlm.nih.gov/mesh/MBrowser.html>. We encourage the use of synonyms for terms provided in the article title, this is to aid database searches.

Tables: Tables must be numbered sequentially and in the order in which they are mentioned in the text. Tables must have brief descriptive title. Preferably, tables must be prepared according to the guides in Chicago Manual of Style.

Figures: Figures must be numbered sequentially and in the order in which they are mentioned in the text. Figure legends are needed for all figures. Grayscale and color artwork should have a minimum resolution of 300 dpi.

Videos: We also welcome submission of short videos as supplementary file. Videos may be useful for demonstrating complex laboratory, surgical or medical procedures. The demonstration of the experiment must be shown in orderly fashion, including a demonstration of equipment and reagent. Researchers should be properly attired when handling animals, reagents and chemicals. Each video file must be under 5 minutes. We accept .mov, .avi, .swf formats. The video should make a specific point; particularly, it should demonstrate the features described in the text of the manuscript. Special effects or text are not permitted to be inserted in the video. Unfortunately, we do not do video editing and production.

Reference: References should be numbered consecutively in the order in which they are first mentioned in the text (citation-sequence)—the Vancouver style. Identify references in text, tables and legends by Arabic numerals in parentheses. For formatting end references, we recommend following the guidelines of the Council of Science Editors (CSE) which can be accessed through <http://library.duke.edu/research/citing/workscited/>

Journal article: The titles of journal should be abbreviated according to the style used in [http://www.ncbi.nlm.nih.gov/sites/entrez?Db=journals&Cmd=DetailsSearch&Term=currently indexed\[All\]](http://www.ncbi.nlm.nih.gov/sites/entrez?Db=journals&Cmd=DetailsSearch&Term=currently indexed[All]) or http://www.efm.leeds.ac.uk/~mark/ISIabbr/A_abrvjt.html

Editing

A manuscript may be corrected for length, grammatical correctness, sentence structure and journal style. Accepted manuscripts are edited in accordance with the *CSE Manual of Style, 7th edition* and *Chicago Manual of Style 15th edition*. The final proof of the manuscript will be sent to the corresponding author for final checking. The author should not make any changes to the contents of the manuscript at this stage.

Editorial policies for authors

Authors are required to sign the Authorship Agreement Form when submitting a manuscript to MJMS. In addition, authors are required to identify their contributions to the work described in the manuscript. If requested to see the original data, authors must provide the data and must cooperate in obtaining and providing the data on which the manuscript is based.

Conflicts of Interest and Financial Disclosures

A conflict of interest may arise when an author (or the author's institution or employer) has financial or personal relationships that could influence the author's decisions, work, or manuscript. All authors are required to disclose all potential conflicts of interest, including specific financial interests and relationships and affiliations (other than those affiliations listed in the title page of the manuscript) relevant to the subject of their manuscript. Please refer to the Authorship Agreement Form.

Authors are expected to provide detailed information about all relevant financial interests and relationships or financial conflicts within the past 5 years and for the foreseeable future, particularly those present at the time the research was conducted and through publication, as well as other financial interests (such as patent applications in preparation), that represent

potential future financial gain. Authors may do so in the covering letter submitted via Manuscript Central.

Funding/Support and Role of Sponsor

All financial and material support for the research and the work should be clearly and completely identified in an Acknowledgment section of the manuscript. The specific role of the funding organization or sponsor in each of the following should be specified: "design and conduct of the study; collection, management, analysis, and interpretation of the data; and preparation, review, or approval of the manuscript."
